Gabriel Granados Ureña

Front-End Developer | Quality Assurance & Software Analysis | AI
Data Review | Web Systems
Alajuela, Costa Rica

Summary

Technical professional with experience in software development, web systems, and quality assurance, combining strong analytical skills with a deep understanding of software interfaces and user workflows. Experienced in reviewing, troubleshooting, and improving digital platforms with a strong focus on accuracy, usability, and attention to detail. Skilled in HTML, CSS, JavaScript, Python, PHP, MySQL, React, Vue, Laravel, Astro, TailwindCSS, and SASS. Comfortable working across dashboards, administrative systems, APIs, and web applications while identifying inconsistencies, validating functionality, and documenting technical findings clearly. My background in quality assurance and software analysis allows me to approach technology from both a technical and user-focused perspective. Highly adaptable, detail-oriented, and passionate about learning new technologies, with a strong interest in AI-related workflows, data review, and system evaluation.

Experience

Confluent Medical Technologies

Operations Associate

September 2025 - May 2026 (9 months)

Alajuela, Costa Rica

- Performed operational and quality-focused tasks in a regulated manufacturing environment, ensuring compliance with established procedures and standards.
- Maintained high attention to detail while reviewing processes, identifying inconsistencies, and supporting accuracy across daily operations.
- Worked with technical documentation, process verification, and workflow execution in fast-paced environments.
- Collaborated with cross-functional teams to support operational efficiency and product quality objectives.
- Followed strict quality assurance guidelines and contributed to maintaining high-performance standards.

- Demonstrated strong analytical thinking, adaptability, and problem-solving skills while handling process-driven responsibilities.

SOLUCIONES SS

Front-End Developer & QA Tester

July 2022 - August 2025 (3 years 2 months)

San Jose, Costa Rica

At Soluciones SS, I have taken on a dual role as a Front-End Developer and QA Tester, contributing to the design, development, and quality assurance of various web solutions for clients and internal platforms such as SSPyMes.

Key responsibilities and achievements:

- ♦ Developed responsive, efficient, and visually appealing interfaces for corporate websites and internal products.
- ♦ Technical stack: HTML, CSS, JavaScript, PHP, Python, Bootstrap, React, Laravel, Astro, TailwindCSS.
- ♦ Applied object-oriented programming (OOP) principles and worked with relational databases (MySQL).
- ♦ Conducted manual functional testing to ensure performance and quality before production release.
- ♦ Created test cases, performed requirements analysis, and executed cross-browser testing.
- ♦ Led testing processes for the SSPyMes platform and client websites such as Clark and Soporte Dinámico.
- ♦ Collaborated in Agile (Scrum) environments and used GitHub for version control and teamwork.
